- > Easy-to-share, customer-ready presentations, solution sheets, and videos

Find the best professional graphics solution for your customers based on their needs

ASK

- > Are you using integrated graphics?
- > Are you looking to drive a single or multiple displays or video walls?
- > Do you work in financial services, education, insurance, any commercial environments, government agencies, hospitals or call centers?

YES!

Recommend*

Are you...	Work Environment		Good	Better	Best	Background and Advantages
Using Windows 10? Customer is using integrated graphics.	Windows 10 is graphically intense. A dedicated graphics card will give a better overall user experience. For multiple displays, customer will need a dedicated graphics card.	DESKTOP	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA T1000 8GB	All cards support up to four displays. For additional or high-resolution displays, recommend NVIDIA T1000 8GB. NVIDIA T1000 8GB provides an additional port, increased performance, more memory, and more CUDA Cores and higher single-precision performance.
		MOBILE**	NVIDIA T600			
Using Linux?	Is this to drive a single display? Yes, tends to be for a compute solution. No, is this for high resolution display or video wall?	DESKTOP	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA T1000 8GB	For additional or high-resolution displays, recommend NVIDIA T1000 8GB. NVIDIA T1000 8GB provides an additional port, increased performance, more memory, and includes more CUDA Cores and higher single-precision performance.
		MOBILE**	NVIDIA T600			
Using 4K displays?	No? Do you plan on using 4K displays in the future?	DESKTOP	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA T1000 8GB	Future proof your customer for when they will use higher resolution displays as they will need more frame buffer memory. NVIDIA T1000 8GB provides an additional port, increased performance, more memory, and includes more CUDA Cores and higher single-precision performance.
		MOBILE**	NVIDIA T600			
Building a video wall or using for digital signage? Do you need to drive 8 displays or more?			2x NVIDIA T1000 8GB	2x NVIDIA RTX A4500	2x NVIDIA RTX A6000	Two cards are needed if driving eight displays. RTX A4500 allows use of Quadro Sync II and NVIDIA Mosaic multi-display technology, and the user gets 20GB of memory and error correcting code (ECC). RTX A6000 provides 48GB of memory.
Currently using or have you used an older P-Series?	If yes, your customer has an environment that uses multiple displays.					
	Ask your customer which graphics card they use and look below for recommendations					
	Are you using P400?		NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA T1000 8GB	Advantages of NVIDIA T1000 8GB is an additional port, better performance, and includes more CUDA Cores and higher single-precision performance.
	Are you using P620?		NVIDIA T1000 8GB			NVIDIA T1000 8GB has the same number of ports, but the user gets enhanced single-precision performance.
Are you using P2200?		2x NVIDIA T1000 8GB	2x NVIDIA RTX A4500	2x NVIDIA RTX A6000	Two cards are needed if driving eight displays. RTX A4500 allows use of Quadro Sync II and NVIDIA Mosaic multi-display technology, and the user gets 20GB of memory and error correcting code (ECC). RTX A6000 provides 48GB of memory.	

*All NVIDIA RTX and Quadro graphics cards offer power efficiencies to decrease power consumption and minimize cost of ownership (TCO).

**Check with OEM manufacturer for specific feature support

ENTERPRISE GRAPHICS VS. CONSUMER GRAPHICS

NVIDIA makes industry-leading graphics cards for a variety of uses.

When you come across a customer who's using gaming cards for professional applications, make sure they're aware of the unique benefits that NVIDIA RTX professional graphics cards offer.

BENEFITS OF PROFESSIONAL GRAPHICS OVER CONSUMER GRAPHICS

Enterprise graphics cards are built for years of non-stop use:

- > Designed and tested for reliable performance 24 hours a day, 7 days a week.
- > Extended availability and support is offered on all professional cards, including bug fixes for professional applications.

Enterprise graphics cards are built for workplace environments:

- > More GPU memory, smaller footprints, and less power consumption.
- > Deployment can be for tens or hundreds of PCs in offices.
- > **Application certified:** NVIDIA RTX professional graphics cards and NVIDIA RTX enterprise drivers are continuously tuned and tested for software compatibility and stability on 100% of certified professional software applications.

NVIDIA graphics cards provide enterprise support tools for remote administration and deployment, as well as professional features such as:

- > **NVIDIA RTX Desktop Manager software** features a full suite of display management tools like flexible window snapping, user profiles, window management, and hotkey support.
- > **NVIDIA RTX Experience** delivers productivity tools such as the ability to record video at up to 8K, automatic alerts for driver update, gaming features, and application optimization.
- > **NVIDIA Mosaic** display technology lets you combine up to 16 high-resolution displays or projectors to create a seamless large-scale visualization.
- > **Advanced 3D stereo** supports stereoscopic 3D display on HDMI 3D TVs, projectors, and displays, allowing for viewing images and ultrasounds in 3D.

PERFORMANCE	ENTERPRISE	GAMING	INTEGRATED
Professional application-specific feature development and tuning	•		
Driver optimizations to maximize professional application performance	•		
Unique features to support professional workflows	•		
IT tools for easy deployment and management	•		
Gaming profile*	•		
Extreme performance scaling with Multi-GPU	•		

RELIABILITY

Professional application-specific testing by NVIDIA	•		
100+ professional application certifications by independent software vendors (ISVs)	•		
Certified across workstation platforms by leading original equipment manufacturers (OEMs)	•		
Unified, rock-solid driver with deterministic release schedule	•		
Tested and certified by NVIDIA and OEM partners for 24/7 reliability	•		
Extended availability	•		

SUPPORT

Deep workflow experience across vertical industries	•		
Long-life cycle availability and support	•		
Bulk availability for large enterprises	•
